### MAKE YOUR KITCHEN DRAWER A COMFORT ZONE

... and treat your best kitchen knives to these appealing sheaths by GIESSER.

Kitchens can become hectic places – yet good timing is essential. Sounds familiar, right? Various cooking processes need to be completed simultaneously. You're also busy involving the kids and calming down the dog. Didn't your mobile just ring? You missed it. The dog meows while the stereo barks.

Then you open your crammed kitchen drawer, reaching for your most stylish knife ... and thanks to the Protector by GIESSER, you're in your comfort zone.

Why? Well, every amateur cook has a favourite knife, the one you keep coming back to. And here's where the GIESSER Protector comes in: inside your kitchen, at your barbecue, or while camping.

GIESSER Protectors are attached to your knives with a plastic clip, offering two advantages:

1. The cutting edges of closely packed knives are fully protected and remain sharp.
2. Your hands are protected reliably, even when things get a bit hectic.

The Protector, manufactured by the quality knife specialist GIESSER, is available in various sizes to suit all blade lengths. Two different versions, featuring an angled or a straight opening, make the Protector a perfect fit for every blade and handle shape.

- For blade lengths from 5 to 36 cm
- For blade widths from 0.5 to 5.5 cm
- Supplied as a set of two sheaths

**For more information on the GIESSER Protector, please contact your retail partner or visit [www.giesser.de](http://www.giesser.de)**
