THE NEW GENERATION
OF SHARPENING STEELS
MADE IN GERMANY

NEW

HIGHER EDGE RETENTION AND GREATER SAFETY

Improve your knives' sharpness and edge retention with the exceptionally fine, specially coated sharpening steel. Whether an oval or a round profile – it's your choice. The handle, made from two plastic components, is extremely ergonomic and helps ensure safe use.

Special features – like colourful handles and an engravable stainless steel tag for personalisation and tracking – make these sharpening steels essential for all plants using tool management systems or complying with HACCP.
