

## THE NEW GENERATION OF SHARPENING STEELS MADE IN GERMANY

»» [Download image in high resolution](#)

Is there a busier place on Earth than a commercial kitchen? To succeed here, you need top-of-the-line professional qualities. From A to S – S as in “Sharpening steel of the next generation”.

### **GET A GRIP ON EVERYTHING: ERGONOMICS AND SAFETY**

GIESSER, a leading manufacturer of knives and accessories for the food processing and food service industries, offers you a new generation of professional sharpening tools. Improve your knives’ sharpness and edge retention significantly with these fine, specially coated sharpening steels. Whether an oval or a round profile – it’s your choice.

The handle, made from two components, is perfectly ergonomic, thus ensuring safety at work. The finger guard prevents slipping. The integrated suspension ring additionally boosts occupational safety.

### **GET A GRIP ON EVERYTHING: ORGANISATION AND EFFICIENCY**

Does your kitchen use a tool management system or HACCP? Thanks to special features – like an engravable stainless steel tag and handles of different colours – it’s easy to personalise and track GIESSER sharpening steels, making them real team players in the modern workflow.
